

These changes in his thinking and behavior were triggered by his desire to be accepted and affirmed in a patriarchal workplace and rationalized by his desire to get ahead. His story is not unusual. Boys brutalized and victimized by patriarchy more often than not become patriarchal, embodying the abusive patriarchal masculinity that they once clearly recognized as evil. Few men brutally abused as boys in the name of patriarchal maleness courageously resist the brainwashing and remain true to themselves. Most males conform to patriarchy in one way or another.

Indeed, radical feminist critique of patriarchy has practically been silenced in our culture. It has become a subcultural discourse available only to well-educated elites. Even in those circles, using the word “patriarchy” is regarded as passé. Often in my lectures when I use the phrase “imperialist white-supremacist capitalist patriarchy” to describe our nation’s political system, audiences laugh. No one has ever explained why accurately naming this system is funny. The laughter is itself a weapon of patriarchal terrorism. It functions as a disclaimer, discounting the significance of what is being named. It suggests that the words themselves are problematic and not the system they describe. I interpret this laughter as the audience’s way of showing discomfort with being asked to ally themselves with an antipatriarchal disobedient critique. This laughter reminds me that if I dare to challenge patriarchy openly, I risk not being taken seriously.

Citizens in this nation fear challenging patriarchy even as they lack overt awareness that they are fearful, so deeply embedded in our collective unconscious are the rules of patriarchy. I often tell audiences that if we were to go doorto-door asking if we should end male violence against women, most people would give their unequivocal support. Then if you told them we can only stop male violence against women by ending male domination, by eradicating patriarchy, they would begin to hesitate, to change their position. Despite the many gains of contemporary feminist movement—greater equality for women in the workforce, more tolerance for the relinquishing of rigid gender roles—patriarchy as a system remains intact, and many people continue to believe that it is needed if humans are to survive as a species. This belief seems ironic, given that patriarchal methods of organizing nations, especially the insistence on violence as a means of social control, has actually led to the slaughter of millions of people on the planet.

Until we can collectively acknowledge the damage patriarchy causes and the suffering it creates, we cannot address male pain. We cannot demand for men the right to be whole, to be givers and sustainers of life. Obviously some
