

## WORKS

patriarchal men are reliable and even benevolent caretakers and providers, but still they are imprisoned by a system that undermines their mental health.

Patriarchy promotes insanity. It is at the root of the psychological ills troubling men in our nation. Nevertheless there is no mass concern for the plight of men. In *Stiffed: The Betrayal of the American Man*, Susan Faludi includes very little discussion of patriarchy:

Ask feminists to diagnose men's problems and you will often get a very clear explanation: men are in crisis because women are properly challenging male dominance. Women are asking men to share the public reins and men can't bear it. Ask antifeminists and you will get a diagnosis that is, in one respect, similar. Men are troubled, many conservative pundits say, because women have gone far beyond their demands for equal treatment and are now trying to take power and control away from men...The underlying message: men cannot be men, only eunuchs, if they are not in control. Both the feminist and antifeminist views are rooted in a peculiarly modern American perception that to be a man means to be at the controls and at all times to feel yourself in control.

Faludi never interrogates the notion of control. She never considers that the notion that men were somehow in control, in power, and satisfied with their lives before contemporary feminist movement is false.

Patriarchy as a system has denied males access to full emotional well-being, which is not the same as feeling rewarded, successful, or powerful because of one's capacity to assert control over others. To truly address male pain and male crisis we must as a nation be willing to expose the harsh reality that patriarchy has damaged men in the past and continues to damage them in the present. If patriarchy were truly rewarding to men, the violence and addiction in family life that is so all-pervasive would not exist. This violence was not created by feminism. If patriarchy were rewarding, the overwhelming dissatisfaction most men feel in their work lives—a dissatisfaction extensively documented in the work of Studs Terkel and echoed in Faludi's treatise—would not exist.

In many ways *Stiffed* was yet another betrayal of American men because Faludi spends so much time trying not to challenge patriarchy that she fails to highlight the necessity of ending patriarchy if we are to liberate men. Rather she writes:

Instead of wondering why men resist women's struggle for a freer and healthier life, I began to wonder why men refrain from engaging in their own
